OBJECTIVE

Seeking a challenging internship opportunity as an AI/Data Science Intern to leverage my knowledge and skills in AI, machine learning, deep learning, and generative AI. Eager to contribute to the Advanced Data Analytics team at Assurant, developing analytical tools for clients and implementing creative solutions for business problems.

EDUCATION

BS in Computer Science
Abasyn University, 2020-2024

SKILLS

- Programming Languages: Python, R, Scala
- Data Analysis: NumPy, Pandas, SQL
- Machine Learning: TensorFlow, Scikit-Learn, PyTorch
- Deep Learning: Keras, OpenCV
- Visualization: Power BI, Tableau, Matplotlib, Seaborn
- Tools: Git, SharePoint

EXPERIENCE

Data Science Intern
Ineuron, Remote

May 2023 - August 2023

- Conducted data analysis and developed predictive models using Python and R.
- Utilized SQL for data cleaning and transformation.
- Presented insights to the leadership team through PowerPoint presentations.

PROJECTS

Generative AI Application Project

Designed and implemented a deep learning algorithm for a Generative AI application to enhance business operations. Utilized TensorFlow for model development and evaluation.

QUALIFICATIONS

- Currently enrolled in 3rd year of undergraduate Computer Science program
- Proficient in Excel, Power BI/Tableau, and PowerPoint
- Familiarity with big data platforms (Hadoop, Spark) and cloud computing
- Strong analytical and problem-solving skills
- Excellent written and verbal communication skills
- Detail-oriented with the ability to work independently and in teams

CERTIFICATIONS

Artificial Intelligence
Xeven Solution

May 2023
